

Ayesha Aziz

Frontend Developer · React · Angular · TypeScript
Guildford, UK | ayeshaaziz44436@gmail.com | 07455 717024

PROFESSIONAL SUMMARY

Frontend Developer and Technical Founder with over 10 years of experience building high-performance web applications across enterprise, SaaS, and product domains. Deep expertise in both React and Angular ecosystems, including Redux, NgRx, and RxJS with a consistent record of improving performance, reducing defects, and delivering scalable architecture. Experienced in leading teams, establishing engineering standards, and taking products from initial concept through to production. Combines strong technical foundations with a product-focused mindset.

CORE SKILLS

Frameworks	React · Angular · RxJS · NgRx · Redux
Languages	TypeScript · JavaScript (ES6+) · HTML5 · CSS3 / SASS, Java, C#
Tooling	Vite · Webpack · Git · Jenkins · Electron · Cordova
Backend	Node.js · Supabase · PostgreSQL · MongoDB · REST APIs · WebSockets
Testing	TDD / BDD · Jasmine · Karma · Protractor · JMeter
Process	Agile / Scrum · Jira · Confluence · Code Review · Mentoring

PROFESSIONAL EXPERIENCE

Technical Founder · Sweet Hub · Guildford, UK 2025 – Present

- Architected and launched a bespoke ERP platform using React, Redux, Vite, and Tailwind CSS — reduced manual inventory errors by 25%.
- Implemented a serverless backend with Supabase and PostgreSQL, delivering real-time multi-user data synchronisation.
- Engineered complex regulatory compliance logic into an intuitive, accessible UI — translating intricate business rules into clean frontend workflows.
- Owned the full product lifecycle: architecture, UX decisions, development, deployment, and iterative performance optimisation.

Software Engineer · Extron Electronics · Dartford, UK 2019 – 2025

- Optimised Angular UI architecture for high-resolution video wall processors, reducing page load time and latency by 30%.
- Implemented NgRx and RxJS state management patterns, significantly improving application stability and long-term maintainability.
- Established TDD/BDD standards and applied SOLID principles across the codebase — cutting post-release defects by 40%.
- Mentored junior developers and led a structured code review culture, improving team output quality and reducing PR cycle time.

Frontend Developer · Nicander Ltd · Billingham, UK 2015 – 2019

- Delivered scalable, modular applications using AngularJS, Node.js, and MongoDB — improved system uptime by 20%.
- Built real-time dashboards for AFMS and led frontend development for CHARM ATMS (Highways England), enhancing live data visualisation for national road infrastructure.

- ▶ Collaborated cross-functionally to deliver responsive, accessible interfaces for high-availability public sector systems.

Software Developer · [Saggezza](#) · [Sunderland, UK](#)

2014 – 2015

- ▶ Built a transaction simulation tool for a Customer Communication Management (CCM) system, improving testing accuracy and automation reliability.
- ▶ Developed real-world CCM transaction components, enhancing end-to-end automation across the platform.

EDUCATION

MSc Computing · University of Sunderland, UK

2015

MSc Computer Science · Virtual University, Pakistan
