

Ayesha Aziz

Frontend Developer | Software Engineer

Guildford, United Kingdom | ayeshaaziz44436@gmail.com | 07455 717024 | [Portfolio](#)

Professional Summary

Innovative and performance-driven Frontend Developer with 9+ years of experience designing and implementing scalable, high-performance web applications using Angular, React, TypeScript, and JavaScript. Adept at building component-based architectures that enhance code reusability, maintainability, and user experience. Skilled in applying Agile principles, TDD/BDD, and state management (NgRx, Redux) to deliver robust, maintainable, and efficient solutions across diverse platforms.

Core Competencies

- Frontend Frameworks: Angular, React, RxJS, NgRx, Redux
- Programming Languages: JavaScript, TypeScript, HTML5, CSS3, SASS
- Platforms: Electron, Cordova, Cross-Platform Web/Desktop/Mobile
- Backend & APIs: Node.js, RESTful APIs, WebSockets, Python, Supabase, MongoDB etc
- Tooling & DevOps: Git, Jenkins, Perforce, NPM, ESLint, NVM
- Testing & QA: Jasmine, Karma, Protractor, JMeter, SOAPUI, TDD, BDD
- Project Management: Agile (Scrum), Jira, Confluence

Professional Experience

Sweet Hub – Guildford, UK

Software Engineer | 2025 – Present

Leading frontend architecture and performance optimization initiatives for eCommerce applications. Implementing modern React design patterns and reusable UI components to enhance scalability and maintainability. Collaborating cross-functionally to ensure seamless integration with backend APIs such as Supabase and third-party systems.

Extron Electronics – Dartford, UK

Software Engineer | 2019 – 2025

Optimized UI architecture for high-resolution video wall processors, reducing load times and latency by 30%. Implemented NgRx and RxJS for efficient state management, improving stability and maintainability. Established TDD/BDD standards and applied SOLID

principles, cutting post-release defects by 40%. Mentored junior developers, fostering a strong code review culture.

Nicander Ltd – Billingham, UK

Frontend Developer | 2015 – 2019

Developed scalable, modular applications using AngularJS, Node.js, MongoDB, and C#, increasing system uptime by 20%. Built dashboards for AFMS and led development for CHARM ATMS (Highways England), improving real-time visualization.

Saggezza – Sunderland, UK

Software Developer | 2014 – 2015

Built a transaction simulation tool for a Customer Communication Management system, improving testing accuracy. Developed real-world CCM transaction components to enhance automation and reliability.

Education

MSc in Computing – University of Sunderland, UK – 2015

MSc in Computer Science – Virtual University, Pakistan – 2012

Postgraduate Diploma in IT – Govt. Post Graduate College, Pakistan – 2007

Soft Skills

- Strong problem-solving and analytical thinking
- Effective communicator and team collaborator
- Adaptive in fast-paced Agile environments
- Committed to continuous learning and code quality
